

Revision of ERP Rates for the Month of June

News Releases 20 May 2022

The Land Transport Authority (LTA) has completed its latest review of Electronic Road Pricing (ERP) rates.

- Based on LTA's monitoring of traffic conditions in April and May 2022, traffic has built up at various stretches of expressways with the phased easing of workplace restrictions from 29 March.
- Based on traffic speeds, 19 time periods across 8 locations have been identified for ERP rate increases as speeds at these timeslots have fallen below the optimal speed range. However, in view of the upcoming school holidays, ERP rates for 6 time periods across 3 locations will be implemented only after the school holidays, i.e. from Monday, 27 June 2022. For the other 13 time periods across 7 locations where low speeds would likely persist throughout the June school holidays, ERP rates will be increased by \$1.00 with effect from 30 May 2022.
- Meanwhile, 14 other time periods across 5 locations will see an ERP rate reduction during the June school holiday period, from 30 May 2022 and will revert to the pre-school holiday charges from Monday, 27 June 2022 onwards.
- A summary of the ERP rate changes is below:
