The Land Transport Authority (LTA) has completed its latest review of Electronic Road Pricing (ERP) rates.

2. ERP rates will be temporarily reduced at six locations during 14 specified time periods, during the December school holiday period from 24 November to 31 December 2025. The rates will revert to current ERP rates from 2 January 2026.
3. Meanwhile, based on LTA's monitoring of traffic conditions in October 2025, traffic has built up at various stretches of expressways. ERP rates will be increased at four locations during nine specified time periods, as traffic speeds have fallen below the optimal range. ERP rates at these locations will increase by \$1.00 with effect from 2 January 2026. Motorists are encouraged to plan their journeys and consider taking alternative routes.
4. A summary of the ERP rate changes are below:
