The Land Transport Authority (LTA) has completed its latest review of Electronic Road Pricing (ERP) rates.

- Based on LTA's monitoring of traffic conditions in January 2022, traffic speeds have remained generally optimal on all arterial roads, including those within the Central Business District. ERP charges will thus remain at \$0 at these locations until the next review.
- However, with the easing of workplace restrictions from 1 January, where 50% of those who can work from home are allowed to return to the office, traffic has built up at certain stretches on the Ayer Rajah Expressway (AYE) and Central Expressway (CTE).
- To manage congestion at these locations, ERP rates will be adjusted by \$1.00 with effect from 14 February 2022 at the following gantries during the specified time periods. Following this adjustment, majority of ERP gantries remain unpriced and ERP will be charged at only 7 locations, compared to 29 locations pre-COVID.
