How should I count my local employees to calculate my Work Permit and S Pass quota?

Your local employee must earn the Local Qualifying Salary (LQS) of at least \$1,400 before they can be counted towards your quota entitlement.

A Singaporean or Permanent Resident employee employed under a contract of service, including the company's director, is counted as:

- 1 local employee if they earn the LQS of **at least \$1,400 per month**.
- 0.5 local employee if they earn half the LQS of **at least \$700 to below \$1,400 per month**.

Example

Local employee	Monthly salary	Count
A	\$4,500	1
B	\$1,400	1
C	\$700	0.5
D	\$800	0.5
E	\$400	—
Total number of local employees		3

Employees A and B are considered 2 local employees because they each earn at least \$1,400.

Employees C and D make up 1 local employee because they each earn \$700 to below \$1,400.

Employee E is not counted because the salary is below \$700.

The following employees are also not counted when calculating your quota:

- Business owners of sole proprietorships or partnerships.
- Employees who receive CPF contributions from three or more employers.

If you have multiple CPF accounts in your company, you should not contribute CPF for the same employee under the different accounts to get more quota.

Note

If you **hired new employees recently**, you won't see an immediate adjustment in your quota. It depends on when you pay the CPF contribution for each employee.
