Averaging of Gross Wages for Retail PWM

To qualify and meet retail PWM requirements for each retail employee, you must fulfil either one of these conditions:

- Gross wage (including overtime pay, if applicable) paid for a month is equal to or higher than the PWM wage requirements, OR
- The past 3 months' average gross wage (including overtime pay) is equal to or higher than the average of past 3 months' PWM wage requirement.

*If overtime pay is payable, employers should refer to the **Retail PWM wage requirement for overtime**.*

- If you hire foreign workers, you must pay all local employees not covered by the PWM at least the Local Qualifying Salary.

Did you know?

For new employees, averaging will only start in the 3rd month. These employees will need to be paid the full PWM gross wage in the 1st and 2nd month of employment.

- If you are paying at least the PWM wages to your employees, we encourage you to apply for the **Progressive Wage (PW) Mark** via gobusiness.gov.sg. With the PW Mark, you can gain recognition and support from consumers and corporate buyers.
- The Government will provide employers with transitional support by co-funding wage increases for eligible lower-wage workers. For more information on the **Progressive Wage Credit Scheme**, please visit go.gov.sg/pwcs.
