FAQs on Landscape Company Register

What is the Landscape Company Register?

The Landscape Company Register (LCR) was set up by NParks in 2007 to establish credibility and standards of landscaping companies; to promote quality practices. The Landscape Company Register (LCR) is a publicly available listing maintained by the Centre for Urban Greenery and Ecology, a division under the National Parks Board (NParks).

Why register?

The LCR provides many benefits for landscape companies. Any company that wishes to be recognised as a genuine landscape services provider can apply to be on the LCR. Landscape services can include design and planning green spaces, landscape construction and management of completed landscaped areas.

Registered companies are eligible to bid for NParks contracts, apply for the Landscape Productivity Grant (LPG) and other NParks schemes. Service buyers from the private sector are also starting to state preferences for landscaping companies to be listed on the LCR.

From January 2019 onwards, the National Parks Board (NParks) will introduce employment law criteria in the Landscape Company Register (LCR). The Government will only procure from landscape companies that have been listed under the LCR for two consecutive cycles.

When can I register or renew?

The stipulated renewal period is 1 June to 31 Dec 2018 and the administrative fee will be \$250. New applications (including unsuccessful applicants in the previous year) submission made between 1 June and 31 December 2018 will incur an administrative fee of \$350. No application will be accepted between 1 Jan to 31 March 2019. The administrative fee

Who can register?

Any ACRA-registered company that holds landscape maintenance and/or landscape implementation service contracts or has a plant nursery can apply for the LCR. Companies that have been operating for at least 6 months and with more than 55% revenue income or sales turnover from landscape business activities can apply.

Newly setup landscape companies with at least 6 months of active business operations and records can submit their application for assessment. However, additional relevant and equivalent documents are required to be submitted. To meet the minimum criteria, the company must provide sufficient proof of active landscape business activities as being the core business activity of the company.

In addition, the requirement for companies to fulfill the Progressive Wage Model (PWM) for the landscape industry was introduced from 2016 onwards. Companies will need to meet the PWM conditions before submitting their LCR applications.

What Information is required?

The information required for registration submission is provided in the online application. All information submitted is for the purpose of verification and will be kept strictly commercial-in-confidence.
