

## Revised ERP Rates from 19 November 2022

News Releases 14 Nov 2022

[ERP rates](#)

The Land Transport Authority (LTA) has completed its latest review of Electronic Road Pricing (ERP) rates.

- Based on LTA's monitoring of traffic conditions in October 2022, traffic has built up at various stretches of expressways. 9 time periods across 6 locations have been identified for ERP rate increases as traffic speeds at these timeslots have fallen below the optimal speed range.
- However, in view of the upcoming December school holidays, ERP rates for 4 of the time periods across 3 locations will be implemented only after the school holidays, i.e. from Tuesday, 3 January 2023, as their traffic speeds are projected to improve temporarily during the December school holidays. For the other 5 time periods across 3 locations where low speeds would likely persist throughout the December school holidays, ERP rates will be increased by \$1.00 with effect from 19 November 2022.
- Meanwhile, 7 other time periods across 4 locations will see an ERP rate reduction during the December school holiday period, from 19 November 2022 and will revert to the pre-school holiday charges from Tuesday, 3 January 2023 onwards.
- A summary of the ERP rate changes are below:

### ERP rate increase at 5 time periods with effect from 19 November 2022
