

Revised ERP Rates from 23 March 2026

News Releases 12 Mar 2026

[ERP rates](#)

The Land Transport Authority (LTA) has completed its latest review of Electronic Road Pricing (ERP) rates.

2. Based on LTA's monitoring of traffic conditions in January 2026, traffic has built up at various stretches of expressways^[1]. To manage congestion at these locations, ERP rates will be increased by \$1.00 with effect from 23 March 2026 at the following 4 locations during the 6 specified time periods.

Time Period	Current ERP Rates*	ERP Rates** w.e.f. 23 March 2026
AYE After Jurong Town Hall towards City (Set of 3 Gantries)***		
8:30 - 9:00	\$3.00	\$4.00
9:00 - 9:30	\$2.00	\$3.00
9:30 - 10:00	\$1.00	\$2.00
AYE After North Buona Vista towards Tuas		
18:30 - 19:00	\$2.00	\$3.00
Northbound CTE after PIE (Set of 2 Gantries)***		
17:30 - 18:00	\$3.00	\$4.00
KPE (ECP) after Defu Flyover		
7:30 - 8:00	\$3.00	\$4.00

*ERP rate per Passenger Car Unit (PCU)

**Rates for other time slots at previously announced gantries remain unchanged

*** A location may comprise multiple gantries (Set of X gantries), motorist would only pay at one gantry

3. Rates for the other previously announced timeslots/gantries remain unchanged. Motorists are encouraged to plan their journeys and consider taking alternative routes.

4. LTA will continue to monitor traffic speeds closely and review if ERP rates need to be further adjusted. In particular, LTA is closely monitoring traffic conditions at the Orchard area as speeds have persistently been lower than optimal^[2]. The area was previously subjected to ERP charges and has been unpriced since the Circuit Breaker in April 2020.

^[1] Optimal speed range for expressways is 45-65 kmh.

^[2] Optimal speed range for arterial roads is 20-30 kmh.
